

ØRESUND/ÖRESUND

This list includes services on the Sound between Denmark and Sweden. The Sound is only 4 km wide at Helsingør, the shortest crossing point, and the ferry services were among the most heavily used in Northern Europe, but a road and rail bridge and tunnel opened between København and Malmö in July 2000.

Operators are listed in alphabetic order. For each operator, the following information is given:

Title - This is the name by which the firm is usually identified and is not necessarily the full legal name or the registered owner of a vessel. A glossary of Danish words used in company names is below.

Name of vessel - If the vessel's name has changed since the 2016 'Trip Out' guides, the previous name is given; other former names are not listed.

Nationality of vessel - The following codes are used:

DK - Denmark,

SE - Sweden.

No nationality is given for vessels not yet named.

Particulars of vessel - Year of completion, "gt" or gross tonnage, overall length in metres, and maximum passenger capacity.

Type of vessel - the following codes are used:

C - car ferry,

● - steam-engined,

▲ - auxiliary sailing vessel,

e - electric.

Services - Dates are inclusive: thus, "May - Aug" means from the beginning of May to the end of August.

Unless stated otherwise, cruises and excursions run in summer only, but charter trips are available all year.
